

MAKE YOUR MARK®

ULTRA-MARK PAINT

ULTRA-MARK® PAINT

Formulated to generate superior brilliance for long-range visibility. Before marking a dark surface, spray a coat of white to enhance the brightness of the paint. The Ultra-Mark spray paint contains no fluorocarbons, making it non-toxic after drying. Top discharge valve for ease of use. All Keson paint is water based.

Use with **PA14**, **PA35**, **RRPA18** and **RRPA182** applicators.

HOW MUCH IS ENOUGH?

A 16-ounce can provides approx. 250 feet of a 4-inch wide line. A 20-ounce can covers approx. 300 feet with the same 4-inch line.

How much Paint is in the can? Compare the Net Weights.

Federal law requires that the cans clearly label the net weight of paint.

20 ounce cans =

Keson: 17 oz. of paint + 3 oz. of propellant (for 16 oz. cans it's 14:2)

Most Competitors: 15 - 16 oz. of paint + 4 or 5 oz. of propellant (for their 16 oz. cans it's 13:3)

100% of Keson paint is made in the USA.

Shelf life of a can of paint is approximately 1 year.

AFSA UNIFORM COLOR CODE		
	WHITE	Proposed Excavation
	PINK	Temporary Survey Markings
	RED	Electric Power Lines, Cables, Conduit & Lighting Cables
